

EZZAH CHAUDARY

Aspiring Software Engineer

Roselane 7A, New Lalazaar, Rawalpindi | +92 311 5751131 | chaudharyezzah8@gmail.com

[Portfolio: ezzahchaudary.github.io/EzzahChaudary](https://github.com/EzzahChaudary)

CAREER OBJECTIVE

Motivated BS Software Engineering student with a strong academic background (CGPA: 3.59) and a broad understanding of software engineering principles. Seeking an internship or entry-level role to apply expertise in web development, system design, and emerging technologies to solve real-world problems. Experienced in working with programming languages, databases, web technologies, and software tools across academic projects. Adaptable, quick to learn, and capable of contributing to various software roles including development, quality assurance, and system design.

EDUCATION

BS Software Engineering — Scholarship Holder 2022 – 2026

Foundation University School of Science and Technology (FUSST) — Rawalpindi, Punjab

CGPA: 3.59

FSc Pre-Engineering 2020 – 2022

Fazaia Intermediate College (Nur Khan Base) — Rawalpindi, Punjab

Matriculation (Science) 2018 – 2020

OPF Girls College — Rawalpindi, Punjab

SKILLS

- Programming Languages:** Java, C++, PHP, JavaScript, Solidity, SQL, HTML, CSS
- Frameworks & Technologies:** React.js, Node.js, Express.js, JSP
- Databases:** MySQL
- UI/UX Design Tools:** Figma
- Other:** Debugging, IT Literacy, Project Planning & Coordination, Deadline Management, Communication Skills

PROJECTS

- Final Year Project — Tokenization of Real-World Asset (RWA) for Rental Property** – Blockchain-based platform enabling fractional ownership of rental properties through tokenization. Uses smart contracts for automated rental income distribution, a secure ownership ledger, and KYC-based compliance mechanisms, with a web-based system built using React.js and Node.js.
- Online Banking System** – OOP-based CLI application simulating core banking operations (accounts, transactions, users) with modular class design and in-memory data handling.
- Hotel Management System** – DSA-based CLI application for room allocation, billing, and customer check-in/checkout using efficient data structures.
- Food Delivery App Interface** – UI designed in Figma focusing on user flow, restaurant browsing, cart management, and an intuitive ordering experience.
- My Coffee Shop Website** – JSP-based web application with database integration for product catalogue, orders, and user login, styled for a cafe brand experience.
- WatchIt Website** – Full-stack PHP website using HTML, CSS, JavaScript, and MySQL for selling and buying watches.

LANGUAGES

- English
- Urdu

HOBBIES

- Reading
- Writing
- Cooking
- Knitting
- Crocheting
