

EZZAH CHAUDARY

Aspiring Software Engineer

Roselane 7A, New Lalazaar, Rawalpindi | +92 311 5751131 | chaudharyezzah8@gmail.com

[Portfolio: ezzahchaudary.github.io/EzzahChaudary](https://github.com/EzzahChaudary)

CAREER OBJECTIVE

Software Engineering with a strong academic record (CGPA: 3.57) and hands-on experience in web development, blockchain, and system design. Passionate about building efficient, user-centric solutions and eager to contribute to real-world projects as a software developer or quality assurance professional.

EDUCATION

BS Software Engineering — Scholarship Holder 2022 – 2026

Foundation University School of Science and Technology (FUSST) — Rawalpindi, Punjab

FSc Pre-Engineering 2020 – 2022

Fazaia Intermediate College (Nur Khan Base) — Rawalpindi, Punjab

Matriculation (Science) 2018 – 2020

OPF Girls College — Rawalpindi, Punjab

SKILLS

- Programming Languages:** Java, C++, PHP, JavaScript, Solidity, SQL, HTML, CSS
- Frameworks & Technologies:** React.js, Node.js, Express.js, JSP
- Databases:** MySQL
- UI/UX Design Tools:** Figma
- Other:** Debugging, IT Literacy, Project Planning & Coordination, Deadline Management, Communication Skills

PROJECTS

- Final Year Project — Tokenization of Real-World Asset (RWA) for Rental Property** – Blockchain-based platform enabling fractional ownership of rental properties through tokenization. Uses smart contracts for automated rental income distribution, a secure ownership ledger, and KYC-based compliance mechanisms, with a web-based system built using React.js and Node.js.
- Online Banking System** – OOP-based CLI application simulating core banking operations (accounts, transactions, users) with modular class design and in-memory data handling.
- Hotel Management System** – DSA-based CLI application for room allocation, billing, and customer check-in/checkout using efficient data structures.
- Food Delivery App Interface** – UI designed in Figma focusing on user flow, restaurant browsing, cart management, and an intuitive ordering experience.
- My Coffee Shop Website** – JSP-based web application with database integration for product catalogue, orders, and user login, styled for a cafe brand experience.
- WatchIt Website** – Full-stack PHP website using HTML, CSS, JavaScript, and MySQL for selling and buying watches.

LANGUAGES

- English
- Urdu

HOBBIES

- Reading
- Writing
- Cooking
- Knitting
- Crocheting
